Role-Based Access Control (RBAC)

Project Name: HopIn – University of Regina Carpool Platform

Purpose:

This document defines the Role-Based Access Control (RBAC) model for the HopIn platform. It specifies user roles and the permissions assigned to each role to ensure system security, data protection, and controlled functionality access.

Roles:

1. **Rider:** A registered user who requests rides.
2. **Driver:** A registered user who posts and manages rides.
3. **Admin:** System administrator responsible for platform oversight.

RBAC Matrix:

Feature/Action	Rider	Driver	Admin
Login	✅	✅	✅
View Available Rides	✅	❌	✅
Post Rides		✅	❌
Request Rides	✅		❌
Accept/ Reject Rides	❌	✅	❌
Edit Own Profile	✅	✅	✅
View Users	❌	❌	✅
Remove Ride	❌	✅	✅
